7. Little information pertaining to the suicide of Frank OLSON was found in the collection of materials made available by DDS&T. However, one brief memorandum dated 14 December 1953 mentioned the OLSON incident. The memorandum stated in part "LOVELL reported that QUARLES and George MERCK were about to kill the Schwab activity at Detrick as "un-American." The memorandum later continued "LOVELL knew of Frank R. OLSON."
